250E/T250E
LOADERS

SUITED TO HEAVY TIMBER AND TOUGH DUTY CYCLE DELIMBING AND MERCHANDISING.

Tigercat®
Tough • Reliable • Productive

THE 250E SERIES LOADERS ARE SUITED TO DELIMBING, MERCHANDISING AND LOADING HEAVY, TREE-LENGTH TIMBER. THE 250E CAN BE EQUIPPED WITH A PULL-THROUGH DELIMBER, BAR SAW SLASHER, CIRCLE SAW SLASHER OR GRAPPLE SAW FOR MAXIMUM FLEXIBILITY.

EFFICIENT HYDRAULICS WITH SWING PRIORITY AND ENERGY RECOVERY DELIVER SIMULTANEOUS POWER TO ALL MACHINE FUNCTIONS FOR HIGH PERFORMANCE, RESPONSE AND FUEL ECONOMY.

KEY BENEFITS

- Efficient load sensing hydraulic system. High performance, low fuel consumption
- Energy recovery swing system. Closed loop system recovers energy as swing decelerates
- Dedicated swing pump. Quick swing cycles, enhanced pull-through delimbing performance
- Automatic engine idle down. Reduced fuel consumption in variable wood flow situations
- Strength-to-weight optimized boom. Designed for heavy lifting and pull-through delimbing
- Quiet, climate controlled operating environment

OPERATING ENVIRONMENT

- The redesigned cab provides 16% more interior volume than the 250D series, with increased width and generous legroom. Ergonomically positioned joysticks and switches are integrated into updated seat armrests for enhanced comfort and control. Climate-controlled cupholders keep drinks hot or cold longer, while dedicated storage includes space behind the seat for a full-size Tigercat insulated lunchbox.

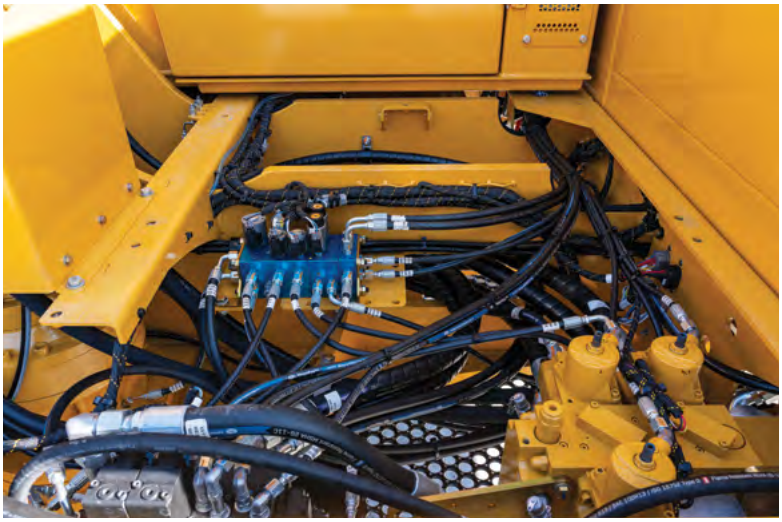

POWERFUL BOOM SYSTEM

- Strong boom and powerful swing torque. The enhanced boom design is purpose-built to withstand the extreme stresses of demanding pull-through delimbing operations. Cushioned boom cylinders provide smooth control. Through-tip grapple hose routing protects from damage.
- Several boom options are available.

GREAT SERVICE ACCESS

- The large panel on the cab platform provides unmatched access to engine service points. The removable deck plates on the platform allow for easy access to hydraulic valves and hoses.

ROCK-SOLID STABILITY

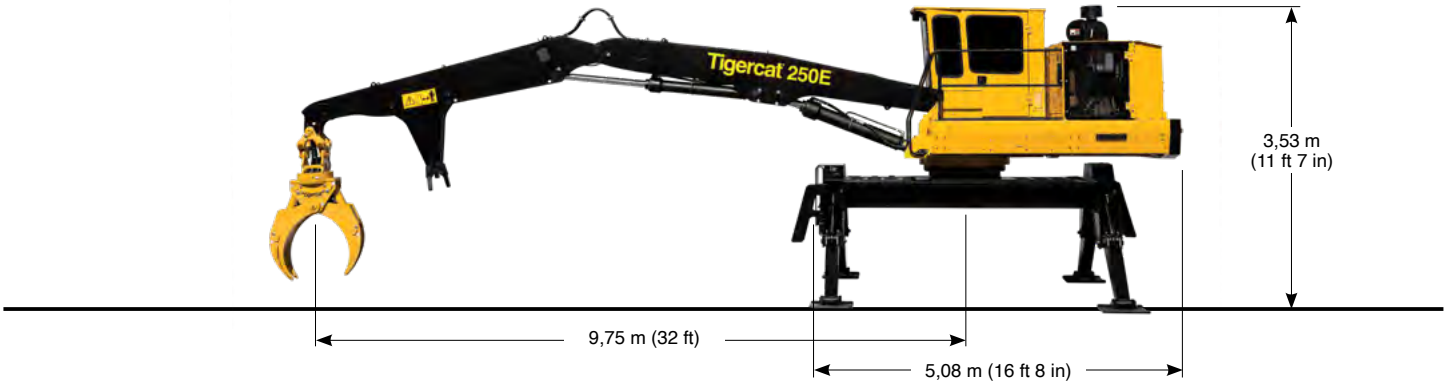

- A Tigercat-built full forest duty undercarriage on the T250E provides excellent tractive effort for mobility on or between decks. The large footprint offers excellent stability for increased operator comfort and reduced fatigue.
